

COMMERCE IN THE MONTH OF JANUARY

Light Movement of Livestock in the West and Cotton in the South.

Washington, March 4.—Internal commerce movements for the month of January, 1910, according to statistics of the department of commerce and labor, showed heavy movements of coal and coke in the east, including grain receipts at the interior markets, light movements of livestock in the middle west and cotton in the south. At seven primary interior markets livestock receipts during the month totaled 3,084,892 head, compared with 3,706,892 and 4,529,823 head received during January, 1909 and 1908. Receipts of hogs were 31 per cent below January, 1909, and 48 per cent below the January, 1908 totals, all the cities sharing in the decline. Shipments for the month of packing house products from Chicago aggregated 167,380,123 pounds, compared with 189,884,534 and 212,298,123 pounds shipped during January, 1909 and 1908. Grain receipts during the month at fourteen interior markets totaled 65,226,087 bushels, compared with 51,222,172 and 66,440,712 bushels in the same month of 1909 and 1908. The eastward trunk line movement of grain from Chicago and Chicago junction points during the four weeks in January, 1910, 174,000 bushels, showed a decided decline from corporation figures in 1909 and 1908, when 15,115,000 and 13,497,000 bushels, respectively, were reached. Sight receipts of cotton during the five months during the present crop season ending in January totaled 8,307,022 bales as against 10,148,557 bales in January, 1909.

The monthly movement of bituminous coal over seven leading eastern coal-carrying railroads, 7,655,741 tons, showed a large increase over the shipments of January, 1909, which amounted to 5,831,539 tons. The estimated coke production at Connelville during the five weeks ending January 29, was 2,306,222 tons, compared with 1,312,879 tons in January, 1909.

A. MONTGOMERY WARD VICTIM OF ACCIDENT

Pasadena, Cal., March 4.—A. Montgomery Ward of Chicago was seriously injured in an automobile accident several days ago, but news of the accident was withheld. His left shoulder was broken when he fell from the tonneau of the machine. He refused to be operated upon.

The automobile top collapsed while Mr. Ward was out driving, and he was thrown out of the machine. An examination at the hospital showed that his left shoulder had been fractured and that he had sustained other injuries, which on account of his age will make recovery slow.

WORST OVER IN OHIO.

Cleveland, March 4.—Three days of sunshine have destroyed the last of the ice gorges in Ohio streams and the melted snow is well on its way to the gulf. Waters in the state are practically normal. As a result of the inundation the low-lying areas are coated with a thick new layer of rich new loam brought from the hills.

FLOOD THREATENED.

St. Joseph, Mo., March 4.—Ice drifts 50 feet high have formed at the waterworks ponds, about two miles north of St. Joe. The river is dammed until it is four miles wide at the waterworks, and within two inches of the high record mark. A huge flood is threatening the city, which is protected by a line of low-lying dikes to protect the bottoms.

St. Joseph, Mo., March 4.—Ice drifts 50 feet high have formed at the waterworks ponds, about two miles north of St. Joe. The river is dammed until it is four miles wide at the waterworks, and within two inches of the high record mark. A huge flood is threatening the city, which is protected by a line of low-lying dikes to protect the bottoms.

SOLVES PROBLEM OF BUST DEVELOPMENT

"Mme. Du Barrie's Positive French Method Is A Marvel," Says Alvin DeCourcy

Different From Anything Else Ever Before Offered to American Women.

"I never saw anything in all my life to equal the Mme. Du Barrie Positive French Method of bust development. It is a marvel," says Alvin DeCourcy while on a recent visit to Mt. Clemens. "It is remarkable what it did in so short a time—in only three weeks."

"I began to think there was nothing which could develop the bust. I had tried everything before this Du Barrie Method was first introduced to American women some time ago. It is now acknowledged to be without an equal in existence. I immediately tried it. It is wonderful. There is nothing like it."

"The Mme. Du Barrie Positive French Method is different from anything else ever presented to American women for bust development. It is successful for women of any age above 16, no matter what the condition of health, whether stout or thin, whether there is no bust development at all, or whether the bust hangs limp from no matter what cause."

"The development is luxurious and lasting, reaching from 2 to 8 inches in 30 days."

In the most fascinating book ever written on bust development, Mme. Du Barrie explains clearly the details of this French Method. It is simplicity itself, to the point of genius, yet different from any other, absolutely scientific, leaving nothing to guesswork.

We suggest to our lady readers that they send their name and address, not enclosing any money, to Mme. Du Barrie, 1284 Quinlan Bldg., Chicago, Ill., and receive by return mail, absolutely free of charge, a fine illustrated booklet by Mme. Du Barrie, with full particulars, etc., sent in plain sealed wrapper.

DANIELS' CLOTHES SHOP

FOR MEN, WOMEN AND CHILDREN.

Will open in a few days with a complete and up-to-date line of the very best in ready-to-wear garments for men, women and children.

It will be the biggest store of its kind in the city—watch for the opening announcements.

Bungalow Theatre Bldg. South State St.

THIS COUNTRY'S FUTURE

Senator Aldrich Says Some City in United States Must Become Financial Center of World.

Providence, R. I., March 4.—"I hope to live to see New York, Boston or Philadelphia the financial center of the world," said Senator Nelson W. Aldrich, chairman of the national monetary commission, to an audience of bankers and professional men representing an aggregate wealth of \$200,000,000 tonight.

"From Mexico to Cape Horn," he said, "there are great nations that ought to be allied to us. You cannot imagine the possibilities of trade in the Orient and in reawakened China. But we can never trade successfully with them until the United States, by virtue of its great resources, becomes the financial center of the world."

Senator Aldrich in his speech let it be inferred that he favored a central bank. He predicted that the final financial system for this country would be a compromise between the advocates of the various plans.

"The worst blow to the prestige of the United States would come if we willed that we could not settle this question without the influence of politics," he added.

THREE CHANCES TO DIE

Italian Republican Deputy Challenged to Fight a Series of Duels in Rome.

Rome, March 4.—Eugenio Chiesa, the well-known Italian Republican deputy, today challenged three other members of the Italian parliament to a series of duels following two free mentions of noble women in the chamber of deputies today. Count Giacomo Morando and General Prudent and Aclia are the challengers.

Signor Chiesa addressed an interrogation to the government on what he asserted was the influence of Baroness Siemens on the Austrian army, by reason, as he alleged, of her having been a friendly terms with the late Lieutenant General Tancredi Saletta, chief of staff, of the Italian army.

General Prudent, under secretary of war, refused to answer the deputy, whereupon Chiesa heaped insults upon him and the army, and also declared that the Duchess Litta had been a great favorite of the late King Humbert. Deputy Morando, who is a nephew of the duchess, immediately boxed Chiesa's ears. Then he and General Felca and Prudent challenged Chiesa to combat.

HYDE HAS FRIENDS IN HIS PROFESSION

Kansas City, March 4.—To learn more about the typhoid fever epidemic in the Swope household, the grand jury today questioned Dr. W. C. Hyde, a physician who examined the house to locate the source of the germs. Dr. William C. Hyde, physician, pronounced the typhoid inquiry, was subpoenaed today.

Both physicians are supporters of Dr. B. C. Hyde. Dr. Cross has defended Dr. Hyde in several interviews. He says he will be able to show the grand jury that the epidemic was due to natural causes. Dr. Perkins is outspoken in his belief that the typhoid germs were due to impure water.

DEPOSED ASSISTANT FORESTER GETS BUSY

Denver, March 4.—The Post says that A. C. Shaw, one of the deposed assistant foresters, whose names figure in the Balfour investigation, has recently been in Denver collecting material to be presented at the investigation at Washington. Mr. Shaw's work, it is asserted, was done among employees of the forestry service here after working hours. Officials of the general land office said today that they had not heard of Shaw's visit. The work of J. M. Sheridan, the land office attorney whose headquarters are here, is said to have been a feature of Shaw's inquiry.

PREFERENTIAL RATES GIVEN COMPETITORS

Washington, March 4.—Charges that the Northern Pacific Railway company, the Great Northern Railway company and the Great Northern Express company are exacting excessive and unfair rates on cream and butter were made today before the interstate commerce commission by the Minnesota Butter & Cream company, and by other butter manufacturers in the northwest.

The complainants urge that they come in competition with concerns in the central west and that they are placed at a disadvantage by the alleged preferential rates that are given to their competitors.

"HANDCUFF KING" NOT WANTED IN CALIFORNIA

Hot Springs, Ark., March 4.—C. A. Conlin, the "handcuff king," arrested here on a requisition from Governor Gillette of California on a charge of grand larceny in connection with the operation of a spook parlor in San Francisco, and who was shot and captured after breaking out of the county jail, was today ordered set at liberty by the California officers.

A message to Chief of Police Moore stated that witnesses against Conlin had disappeared. Conlin will be held here pending a confirmation of the telegram.

REPUBLICAN EDITORS ENDORSE THE SPEAKER

Danville, Ill., March 4.—Twenty Republican editors of the Eighteenth Congressional district of Illinois, represented in Congress by Speaker Cannon, today at a meeting in this city endorsed the speaker's policies, called upon him again to be a candidate for Congress, approved the Payne-Aldrich tariff bill, and paid high tribute to President Taft and Governor Deneen.

NO CHANGE REPORTED IN BETHLEHEM STRIKE

South Bethlehem, La., March 4.—The strike situation at the South Bethlehem steel works showed no change when the day shift resumed work today. No trouble was reported today. Threats are alleged to have been made last night against men living in Hellertown, near here, if they went to work. A detachment of state police was sent to the place at daybreak today, but the workers were not molested.

ANTI-OPTION HEARING.

Amendments to Pending Bill Submitted to Sub-Committee.

Washington, March 4.—Amendments adding cable or wireless telegraph system, or otherwise, to the telegraph and telephone as agencies to which the proposed anti-option legislation is to apply were submitted to the sub-committee of the House on agriculture today by Representative Hardwick of Georgia.

Hatton W. Summers of Dallas, Texas, said the cotton exchange of New York, institutionally, was only slightly different from a bucket shop, and "could not live five minutes" if the market were stable. He attacked the hedging system as injurious, and said it was a direct tax on the producer and on the consumer.

Vice President Marsh and others of the New York Cotton Exchange branded the report of Commissioner of Corporations Smith on cotton legislation as vicious and unscientific.

Economy

It pays to use Hewlett's Teas. They are a good deal stronger than most teas. Are sold at a lower price, considering the quality, and guaranteed to give perfect satisfaction or money refunded.

LOUIS JAMES STRICKEN

Celebrated Actor Suffers Attack of Heart Failure in Helena, Mont., Theatre.

Helena, Mont., March 4.—Louis James, the actor, was stricken with heart failure in his dressing room at the Helena theatre tonight, and for several hours his life was despaired of. The performance was cancelled and Mr. James was removed to his hotel, where it was stated later that his condition was slightly improved.

NOT POPULAR IN HOUSE

Doubt as to Fate of the \$30,000,000 Reclamation Bond Bill.

Washington, March 4.—The administration conservation bill prepared originally by Secretary Ballinger and passed by the Senate, providing that the United States shall issue \$30,000,000 in 3 per cent bonds for the reclamation of arid lands, may meet a summary fate in the House. It is contended by members of the House that this is a revenue producing measure and that such legislation can originate only in the ways and means committee of the House.

HORSE OR DIAMOND.

Joplin, Mo., March 4.—If a horse valued at \$1,000 swallows a diamond worth \$750, should the horse be killed or operated upon to recover the gem?

This is the question that is bothering Capt. E. O. Bartlett here tonight. While he was standing near his saddle-horse, King, an animal of which he is especially fond, the horse nipped a four-carat diamond from his shirt front.

Then, while Bartlett looked on in dismay, the animal calmly swallowed the gem.

Bartlett has consulted several veterinary surgeons to learn whether it would be safe to operate on the horse. If they think the gem could be recovered and the animal's life saved, an operation probably will be performed.

BURNED TO DEATH.

Graham, Mo., March 4.—Bruce Donaldson, aged five, and Margaret Cancker, aged four, were burned to death this afternoon by an explosion of gasoline in a smokehouse, where the children were playing. It is thought they set fire to the gasoline with matches.

WRECK IN MONTANA.

Spokane, Wash., March 4.—The second section of Northern Pacific westbound passenger train No. 7 was ditched just east of Eddy, Mont., 167 miles east of Spokane, about 6 o'clock this morning. Several passengers and trainmen were injured, but none fatally. The baggage car was burned.

NINE PERSONS INJURED.

Pueblo, Colo., March 4.—Santa Fe passenger train No. 58, which left here at 1:30 p. m. for La Junta, was wrecked 20 miles west of here this afternoon by a sliding of earth. The train was made up of a baggage car and two coaches, and all of the cars left the track and overturned. Nine were injured, none of whom will die.

NAME SENT TO SENATE.

Washington, March 4.—President Taft today sent the following nomination to the Senate: Henry C. Cooper, first judge circuit court, first circuit of Hawaii.

FROM NOW ON

Your Credit Is Good at Baron's

- Beginning today, The Baron Co. will inaugurate a "charge account" system whereby men and women can purchase seasonable wearing apparel and pay for same weekly or monthly.
- Credit is your natural right—you should use it whenever possible; that is, when you can secure the commodity you want at cash prices.
- We will sell wearing apparel for men and women on credit at cash prices. We will also sell for cash but there will be no change in prices. Whether you buy for cash or have goods "charged," the prices are the same.
- No matter how little or how much you need—no matter how you are fixed financially—no matter what "your walk" in life may be, you can take advantage of our cash price credit system—the fairest, most liberal credit system to be found anywhere.
- We will clothe you on credit, and accept what weekly or monthly payments you are able to make, and remember—we repeat—whether you pay cash or buy on credit, the prices are the same.
- Come in Saturday—any day—and see how much easier it is—for you—to buy on credit—at this store—than pay cash.
- Our Spring lines are now on exhibition. May we have the pleasure of showing you what smartly dressed folks will wear this Spring?
